

HOTEL + HOSPITALITY Furnishings launches at FURNITEX 2010

HOTEL + HOSPITALITY Furnishings will make its debut as a key feature at **Furnitex 2010**. Held from **15-18 July** at the **Melbourne Exhibition Centre**, over 60 suppliers have signed up to exhibit, showcasing furniture for the growing hospitality and tourism industry.

Buyers from hotels, resorts, gaming, restaurants, cafes, entertainment venues, sporting clubs and property developments will preview the latest furniture and furnishings collections from some of Australia's leading manufacturers, brands and suppliers.

Hotly anticipated exhibitor **Pentium Lighting** will exhibit a range of contemporary illuminated furniture and lighting, lit with colour change, rechargeable and remote controlled LEDs. Made from fully recyclable materials and energy efficient lights/bulbs, the label leads in sustainable pieces for stylish settings.

N&H Distributors will unveil their new 'Axel' range at Hotel + Hospitality Furnishings. Featuring a range of spectacular timber pieces, from mirrors and dining tables to book cases and shelving, the products have been built from hardwood previously used in Chinese junks. N&H distributors cater to a broad range of commercial clients, from boutique hotels to major fashion retailers such as Oroton, Sportsgirl and Witchery.

Also confirmed to exhibit are **Flamingo Furniture**, who will be re-launching with a more contemporary company look to coincide with their expansion into the hotel, hospitality and aged care sector. "This is an exciting new time for us" said Katie Winter, who heads Marketing and Sales for the 30 year old family run business.

Marie Kinsella, Managing Director for Australian Exhibitions and Conferences Pty Ltd, said the phenomenal response from exhibitors shows Australian companies are keen to broaden their exposure beyond the retail sector.

"Traditionally a retail furniture showcase, Furnitex is now an all-encompassing furniture sourcing fair for buyers across many industry sectors. The ongoing development in the Hotel+Hospitality sectors clearly indicates that this sector is growing. Held in conjunction with Decoration + Design, it is a one stop shop for specifiers and retailers", said Kinsella.

FURNITEX and the co-located DECORATION + DESIGN Melbourne are once again major event partners of the State of Design Festival (14 - 25 July 2010) presented by the Victorian State Government.
